

AFFILIATION AGREEMENT

This Agreement is made and entered into between **Tacoma Community College** (“**School**”), located at 6501 S. 19th St, Tacoma, Washington, 98466 and the City of Everett Fire Department (“**Agency**”), located at 2801 Oakes Ave, Everett WA 98201. The purpose of this Agreement is for Agency, which is committed to training health care professionals, to provide desirable clinical learning experiences and facilities for School’s students. In consideration of the mutual covenants and agreements contained herein, School and Agency agree as follows:

I. GENERAL PROVISIONS

A. School and Agency agree that contemporaneous with or following execution of this Agreement and within the scope of its provisions, School may develop letter agreements with Agency to formalize operational details of the clinical education program. These details include, but are not limited to, the following:

- Beginning dates and length of experience (to be mutually agreed upon at least one month before the beginning of the clinical education program);
- Number of students eligible to participate in the clinical education program;
- Specific days, hours and locations for the clinical education program;
- Specific learning objectives and performance expectations for students;
- Specific allocation of responsibilities for the faculty Liaison, clinical education;
- Supervisor, and Preceptors, if any, referenced elsewhere in this Agreement;
- Deadlines and format for student progress reports and evaluation forms.

Any such letter agreements will be considered to be attachments to this Agreement, will be binding when signed by authorized representatives of each party, and may be modified by subsequent letter agreements signed by authorized representatives of each party.

B. School and Agency will jointly plan the clinical education program and jointly evaluate students. Exchange of information will be maintained by on-site visits when practical and by letter or telephone in other instances.

C. School and Agency will instruct their respective faculty, staff, and students participating in the clinical education program, to maintain confidentiality of student and patient information as required by law and by the policies and procedures of School and Agency.

D. There will be no payment of charges or fees between School and Agency.

E. During the term of this Agreement, Agency, including any subcontractor, shall not discriminate on the bases enumerated at RCW 49.60.530(3).

II. SCHOOL'S RESPONSIBILITIES

A. School will provide information to Agency concerning its curriculum and the professional and academic credentials of its faculty for the students at Agency. School will designate an appropriately qualified and credentialed faculty member to coordinate and act as the Liaison with Agency. School will be responsible for instruction and administration of the students' academic education program. School will notify Agency in writing of any change or proposed change of its Liaison. School will have the final responsibility for grading students.

B. School's faculty will meet with the Agency clinical education Supervisor Preceptors, if any, at the beginning and end of the clinical education program to discuss and evaluate the clinical education program. These meetings will take place in person if practicable, otherwise by telephone conference. School is responsible for arranging and planning the meetings.

C. School will provide the names and information pertaining to relevant education and training for all students enrolled in the clinical education program at least four weeks before the beginning date of the clinical education program. School is responsible for supplying any additional information required by Agency as set forth in this Agreement, prior to the arrival of students. School will notify Agency in writing of any change or proposed change in a student's status.

D. School will obtain evidence of current immunizations against diphtheria, tetanus, measles (rubeola), mumps, rubella (or a positive rubella titer), and of hepatitis B immunity status, documented by a protective titer, for those students who will be in contact with patients/clients. For each student born after 1956, School will maintain on file records of positive titer or of post-1967 immunization for rubella and rubeola. At the time of immunization, students with no history of exposure to chickenpox will be advised to get an immune titer. School will require yearly PPD testing or follow-up as recommended if the students are PPD-positive or have had BCG. School will provide information to Agency regarding student status concerning the above requirements.

E. School will assign to Agency only those students who have satisfactorily completed the prerequisite didactic portion of the curriculum and who have evidence of completion of a CPR course based on American Heart Association or American Red Cross guidelines and related to the age group(s) with whom they will be working.

F. School shall ask each student who may be placed in Agency to obtain his/her criminal history background record from the Washington State Patrol, pursuant to RCW 43.43.834 and RCW 43.43.838, to release a copy of that record to the School, and to authorize the School to transmit that record or copy thereof to Agency. Before the start of training, School will provide Agency with the names of any students who have failed to provide the requested records, or who refuse to authorize the release of records to

Agency. The students will be informed that, whether or not they agree to obtain the record and agree to release it to School and Agency, Agency may conduct the background inquiry directly and the Agency may refuse placement of a student who does not provide the requested records or who has a record of prior criminal conduct.

Agency understands and agrees that any information forwarded to it by School has been procured through this process. School does not certify the veracity of the records provided and, furthermore, the obligation to conduct appropriate background checks and the liability for non-compliance therewith remains the responsibility of Agency.

G. School will comply with and ensure to the extent possible that students comply with the policies and procedures established by Agency. School will notify each student of his/her status and responsibilities pursuant to this Agreement. This includes notification to students of the need to procure the insurance coverage required by the Agency as identified in section V. C. below prior to being admitted to the Agency.

H. School will encourage each student participating in the clinical education program to acquire comprehensive health and accident insurance that will provide continuous coverage of such student during his or her participation in the education program. School will inform students that they are responsible for their own health needs, health care costs, and health insurance coverage.

III. AGENCY'S RESPONSIBILITIES

A. Agency will provide students with a desirable clinical education experience within the scope of health care services provided by Agency. Agency will designate in writing Preceptors, if any, to be responsible for the clinical education program, and will designate in writing one person as the clinical education Supervisor, who will maintain contact with the School-designated Liaison to assure mutual participation in and review of the clinical education program and student progress. Agency will submit in writing to School the professional and academic credentials for the Preceptors and clinical education Supervisor. Agency will notify School in writing of any change or proposed change of the Preceptors or clinical education Supervisor.

B. Agency will provide students with access to sources of information necessary for the education program, within Agency's policies and procedures and commensurate with patients' rights, including library resources and reference materials.

C. Agency will make available to students basic supplies and equipment necessary for care of patients/clients and the clinical education program. Within the limitation of facilities, Agency will make available office and conference space for students and, if applicable, School faculty.

D. Agency will submit required reports on each student's performance and will provide an evaluation to School on forms provided by School.

E. Agency retains full responsibility for the care of patients/clients, and will maintain the quality of patient care without relying on the students' clinical training activities for staffing purposes.

F. Agency will have the right to take immediate temporary action to correct a situation where a student's actions endanger patient care. As soon as possible thereafter, Agency's clinical education Supervisor will notify School of the action taken. All final resolutions of the student's academic status in such situations will be made solely by School after reviewing the matter and considering whatever written factual information Agency provides for School; however, Agency reserves the right to terminate the use of its facilities by a particular student where necessary to maintain its operation free of disruption and to ensure quality of patient care.

G. On any day when a student is participating in the clinical education program at its facilities, Agency will provide to such student necessary emergency health care or first aid for accidents occurring in its facilities. The student will be responsible for the costs of any and all care.

H. Except as provided in this Agreement, Agency will have no obligation to furnish medical or surgical care to any student.

IV. STUDENTS' STATUS AND RESPONSIBILITIES

A. Students will have the status of learners and will not replace Agency personnel. Any service rendered by students is incidental to the educational purpose of the clinical education program.

B. Students are required to adhere to the standards, policies, and regulations of Agency during their clinical education program.

C. Students will wear appropriate attire and name tags, and will conform to the standards and practices established by School during their clinical education program at Agency.

D. Students assigned to Agency will be and will remain students of School, and will in no sense be considered employees of Agency. Agency does not and will not assume any liability under any law relating to Worker's Compensation on account of any School student's performing, receiving training, or traveling pursuant to this Agreement. Students will not be entitled to any monetary or other remuneration for services performed by them at Agency, nor will Agency otherwise have any monetary obligation to School or its students by virtue of this Agreement.

V. LIABILITY COVERAGE PROVISIONS

A. Each party to this agreement will be responsible for the negligent acts or omissions of its own employees, officers, or agents in the performance of this Agreement. Neither party will be considered the agent of the other and neither party assumes any responsibility to the other party for the consequences of any act or omission of any person, firm, or corporation not a party to this Agreement.

B. During the term of this Agreement, School, a Washington State government agency, hereby agrees to maintain its participation in Washington State's self-insurance liability program as provided by RCW 4.92.130 for all exposure to tort liability, general liability, property damage liability, and vehicle liability.

C. School will ensure that its Students are covered by two policies, a Student Medical Malpractice Policy and a General Liability Policy, that provide professional liability and general liability for students taking courses that occur at a medical facility for college credit and fulfilling their practicum or intern requirements. Such coverage is not less than \$1,000,000 and \$3,000,000 annual aggregate.

Each party shall be responsible for the acts, errors and omissions of itself and its own officers, employees and agents acting within the scope of their authority and within the scope of the performance of the contract.

E. Upon request, both parties will provide proof of coverage upon execution of this Agreement. In addition, School and Agency agree to notify each other in the case of material modification or cancellation of coverage, and to provide subsequent proof of coverage thereafter.

VI. TERM

A. This Agreement shall be effective as of April 20, 2026 for a term of three (3) years ("Initial Term"), and shall renew every three years commencing from the last date shown below; PROVIDED THAT the parties review this Agreement and memorialize their intent to renew the Agreement for a subsequent three year period – **such renewal being memorialized prior to the expiration of the current three year term**. There shall be a maximum of two renewal periods. The Initial Term and any Renewal Term will be collectively referred to herein as "Term". School and Agency will jointly plan student placement in advance of each year's beginning, taking into account the needs of the school for clinical placement, maximum number of students for whom Agency can provide a desirable clinical education experience, and the needs of other disciplines or schools requesting clinical placements.

B. This agreement may be canceled by written notice one year prior to termination; however, such termination shall not become effective for the students then enrolled in the clinical education program if such termination prevents completion of their requirements for completion of the clinical education program.

VII. PROVISIONS REGARDING BLOOD-BORNE PATHOGENS

A. School certifies that all students assigned to Agency have received training and demonstrated competency in universal precautions and in the transmission of blood-borne pathogens. School shall ensure that all participating students meet Agency's health, safety, and immunization requirements, including any required screenings or vaccinations. Agency shall provide appropriate personal protective equipment for the tasks assigned to School's students.

B. In the event a student sustains a needle-stick injury or other substantial exposure to bodily fluids of another or other potentially infectious material while participating in the clinical education program at Agency, Agency agrees to provide the following services:

- Being seen by Agency's employee health service and/or emergency department as soon as possible after the injury.
- Emergency medical care following the injury;
- Initiation of HBV, Hepatitis C (HCV) and HIV protocol;
- HIV counseling and appropriate testing.

The student will be responsible for the costs of any and all care, testing, counseling, and obtaining necessary follow-up care.

C. The source patient's HBV, HCV and HIV status will be determined by Agency in the usual manner, according to applicable laws and regulations, to the extent possible.

VIII. MISCELLANEOUS PROVISIONS

A. Entire Agreement. This Agreement constitutes the entire agreement between the parties, and supersedes all prior oral or written agreements, commitments, or understandings concerning the matters provided for herein.

B. Amendment. This Agreement may be modified only by a subsequent written Agreement executed by the parties. The provisions in this Agreement may not be modified by any attachment or letter agreement as described elsewhere in this Agreement.

C. Order of Precedence. Any conflict or inconsistency in this Agreement and its attachments will be resolved by giving the documents precedence in the following order:

1. This Agreement;
2. Attachments to this Agreement in reverse chronological order.

D. Governing Law. The parties' rights or obligations under this Agreement will be construed in accordance with, and any claim or dispute relating thereto will be governed by, the laws of the State of Washington.

E. Notices. All notices, demands, requests, or other communications required to be given or sent by School or Agency, will be in writing and will be mailed by first-class mail, postage prepaid, or transmitted by hand delivery or facsimile, addressed as follows:

- (a) To School:
Tacoma Community College
Attn: Valerie Sundby or designee
6501 S. 19th St.
Tacoma, WA 98466
- (b) To Training Site:
Everett Fire Department
Attn: Fire Chief
2801 Oakes Ave, Everett, WA 98201

Each party may designate a change of address by notice in writing. All notices, demands, requests, or communications that are not hand-delivered will be deemed received three (3) days after deposit in the U.S. mail, postage prepaid; or upon confirmation of successful facsimile transmission.

F. Survival. School and Agency expressly intend and agree that the liability coverage provisions of this Agreement will survive the termination of this Agreement for any reason.

G. Severability. If any provision of this Agreement, or of any other agreement, document or writing pursuant to or in connection with this Agreement, shall be held to be wholly or partially invalid or unenforceable under applicable law, said provision will be ineffective to that extent only, without in any way affecting the remaining parts or provisions of said agreement.

H. Waiver. Neither the waiver by any of the parties hereto of a breach of or a default under any of the provisions of this Agreement, nor the failure of either of the

parties, on one or more occasions, to enforce any of the provisions of this Agreement or to exercise any right or privilege hereunder, will thereafter be construed as a waiver of any subsequent breach or default of a similar nature, or as a waiver of any of such provisions, rights or privileges hereunder.

I. Inspection. Agency will permit, on reasonable notice and request, the inspection of clinical and related facilities by agencies charged with responsibility for accreditation of School.

J. HIPAA. School shall direct its students to comply with the policies and procedures of Agency, including those governing the use and disclosure of individually identifiable health information under federal law, specifically 45 CFR parts 160 and 164. Solely for the purpose of defining the student's role in relation to the use and disclosure of Agency's protected health information, the students are defined as members of the Agency's workforce, as that term is defined by 45 CFR 160.103, when engaged in activities pursuant to this Agreement. However, School's students and faculty shall not be considered to be employees of Agency.

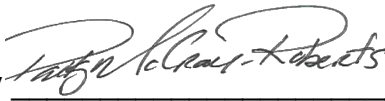

K. FERPA. The Parties agree to protect the participating students' educational records in accordance with the Family Educational Rights and Privacy Act, 20 U.S.C. 1232g and any applicable policy of the Parties. To the extent permitted by law, the Parties may share information from participants' educational records with each other so that each can perform its respective responsibilities under this AGREEMENT but shall not disclose or share education records with any third party.

L. Public Records Act. School acknowledges that Training Site is subject to Washington's Public Records Act, Chapter RCW 42.56. Accordingly, if Training Site receives a public records request, Training Site may disclose the requested information as required by law.

M. Third-Party Rights. This Agreement is entered into for the exclusive benefit of the undersigned parties and is not intended to create any rights, powers or interests in any third party.
